Make Your Voice Heard During the ACS CAN Relay Hour

Putting an end to cancer is an enormous undertaking, which is why we need as many people as possible to speak up. Together, we are working to make sure elected officials are doing all they can in the fight against cancer.

You can learn more about ACS CAN today and how important your voice is when you visit the four activity locations set up at your Relay For Life Event. At each location, get a check mark on your phone to commemorate your visit before moving on to the next activity.
